- Agile Methodology

PERSONAL PROFILE

I'm a Brisbane-based web developer who is highly skilled in designing, developing and deploying creative and responsive web applications. I'm passionate about bringing ideas and visions to life and delivering outstanding user experiences.

KEY PROJECTS

Thoughts and Prayers Foundation Website
https://thoughtsandprayers.io/

- A corporate website introducing the new TAP and Wish cryptocurrency tokens
- Fully responsive, utilising animations and interactive elements
- Built with Sass, JavaScript and Webpack
- Deployed to AWS with an Express.js server
- Incorporates Google Analytics, Mailchimp and Hotjar

Vanfinder
https://github.com/QuentinHS/vanfinder

- A two-way marketplace application in which users can buy and sell customised camper van conversions.
- Utilises MVC and RESTful conventions
- Incorporates user authentication and role authorisation
- Built with Ruby on Rails and JavaScript
- Styled with TailwindCSS

What Next?
hhttps://github.com/QuentinHS/what_next

- A terminal-based career-choice app aimed at graduating high school students
- Utilises an algorithm-based personality profiler to match students to potential careers
- Incorporates extensive unit testing and object-oriented programming
- Built with the Ruby language and numerous Ruby gems

PREVIOUS EMPLOYMENT

Freelance Web Developer
Thoughts and Prayers Foundation (Brisbane) | Sep 2021 - present

- Worked in concert with a designer to develop a new website from conception through to deployment
- Applied technical and problem-solving skills to resolve complex technical challenges in response to changing client requirements
- Worked primarily autonomously as part of a close-knit team to tight deadlines

English Instructor
DaDaABC (Online) | July 2020 - June 2021

- Implemented pre-made lesson plans, and assisted students in understanding difficult concepts through a variety of interactive activities.
- Created additional study materials emphasising proper pronunciation, reading comprehension, grammar patterns and conversational fluency.
- Encouraged and supported students throughout the learning process.

English Instructor
English 21 (Faro, Portugal) | June 2018 - Feb 2020

- Designed an effective English-language curriculum to meet the ongoing needs of students.
- Planned and implemented daily lessons to foster student skills in reading, writing, speaking and listening.
- Adapted lessons as necessary to meet changing student needs.
- Created and fostered a trusting classroom atmosphere to support students' learning experience.
